In 2008, the Association filed suit against the Developer on the issue of square footage representations in the Declaration. This litigation was resolved in 2019. In the course of this litigation, the Association obtained independent Surveyor measurements, and, in 2015, the Association adopted the 5th Amendment to the Declaration which amended the Fractional Share calculation based upon the "Architectural Method." For informational purposes, the attached table provides estimated square footages of the individual Residential Units using both the "Architectural Method" and the "Heated and Cooled Method", along with the Fractional Share calculation.
